

NKPRO

We are excited to announce that staff and students at NK PRO member organizations that offer full access from campus or internal networks can now read NK PRO via our new mobile app - no login required!

Simply install the app from [Google Play](#) or the [Apple App Store](#) and launch it while connected to a whitelisted Wi-Fi network at your organization. You will be logged in automatically.

Even better: You can continue to use the app from home for up to seven days before needing to reconnect on campus or at work. Give it a try!

- Get push alerts on the topics you're interested in
 - Listen to the NK News podcast on the go
- Save bookmarks and create your own reading list
- Browse and search all NK News and NK PRO content
- Receive breaking news alerts right on your phone
