

GETTING MATERIALS FROM JAPAN WITH GIF-ILL

GIF-ILL (Global Interlibrary Loan Framework) is a cooperative project that facilitates ILL between Japanese and North American participating libraries. Please see the guide below to help you provide the ILL staff with the information they need to fill your request.

Step 1: Search the UofT catalogue and OCLC WorldCat. Remember you want to exhaust North American sources first! If you cannot find your title in these databases, then go to Step 2.
(NB: Waseda's books are listed in Worldcat, but their journals are NOT)

Step 2: SEARCH NACSIS WebCat (English Version)

Make sure that in addition to author, title, imprint information, you note down the ISBN/ISSN and the NACSIS Record Number. From the example record on the left, the numbers would be:

- **NACSIS Record Number:**
BA31212379
- **ISBN:** 4792314399

*These numbers uniquely identify the particular item within the NACSIS database

Step 3: The easiest way to check whether a library is a GIF Project participating library is by using the Japanese GIF Holding Library Finder available at: <http://gifproject.libraryfinder.org:8080/>
